Ted:
Attached is the review form and copy of the report with editorial comments therein. I had a number of very small editorial comments in the text. The comment about enlarging Fig. 1 can be ignored, zooming in works fine, i.e. the resolution is there. Content looks fine and it should be good to go pretty quickly.

I need a second review of the review of the pteropod data for Region 10 and an internal review is acceptable. Walt Nelson has kindly agreed to review the document. Can you send the following to Walt for review?

Thanks.
